Profile

Motivated Junior Full-Stack Developer with a Diploma in Information Technology from Vaal University. Proficient in front-end and back-end development, adept at translating requirements into functional code. Committed to staying updated with industry trends and delivering high-quality solutions. Ready to contribute and grow in a dynamic team environment.

Education

- 2018 – 2021: **Diploma (Information Technology)**, Vaal University of Technology
- 2022 – 2023: **System development NQF Level 5**

Work Experience

May 2023 – Present: **Junior Full-stack developer**, Mettus

- *Tech stack*: NextJs, ReactJs, TypeScript, JavaScript, NestJs, Nodejs, Jira, Bitbucket, Postgress, Redux.
- Design intuitive user interfaces using React.js while ensuring robust server-side applications with Nest.js and Node.js. Proficient in JavaScript, I manage data effectively with Postgres and streamline project management with tools like Jira and Bitbucket. My role demands technical expertise, teamwork, and effective communication to deliver high-quality solutions efficiently.

September 2022 – April 2023, Software develop Intern, Mindworx

- As a Software Development Intern at Mindworx from September 2022 to April 2023, I gained hands-on experience in Visual Basic, C#, HTML, CSS, Java, SQL, and provided support for learning management systems (LMS). I contributed to various projects, developing software solutions, creating user interfaces, and ensuring smooth LMS operation.

March 2022 – August 2022: **Business Analyst Learnership**, Leungo Education

- During my Business Analyst Learnership at Leungo Education from March to August 2022, I focused on learning business analysis while actively participating in development-focused projects. Responsibilities included gathering and analyzing requirements, assisting in systems analysis, collaborating with development teams, participating in Agile methodologies, conducting user acceptance testing, and creating comprehensive documentation.

Skills Programming/Coding

- Tech stack: Java, VB , C#, ReactJs, NextJs, Nestjs, JavaScript, TypeScript, HTML, CSS, and Posgraess, Version Control, Redux.

Web Development (Full stack)

- Crafting intuitive user interfaces using React.js to ensure seamless user experiences.
- Developing robust server-side applications with Nest.js and Node.js, ensuring efficient data management and processing.
- Proficiently utilizing JavaScript to handle various functionalities across the stack.
- Effectively managing data with Postgres, ensuring data integrity and reliability.
- Streamlining project management processes using tools like Jira and Bitbucket, enhancing collaboration and productivity.
- Meeting the demands of my role through technical expertise, teamwork, and effective communication, ultimately delivering high-quality solutions efficiently.
- As a Junior Full-stack Developer at Mettus, I prioritize teamwork, collaborating closely with cross-functional teams to deliver high-quality solutions. Through effective communication, knowledge sharing, and support, I contribute to a collaborative environment that fosters creativity and project success.

Communication

- Languages: English (fluent) and Tshivenda (native)
- Public speaking skills developed through virtual and face-to-face tutoring and involvement in leadership roles
